

COVID-19 Update

According to the government, state and ASQA guidelines, ANTS remains open.

COVID-19 Action Plan

In line with the federal government's quarantine plan, we have changed our operations.

When training is scheduled in a workplace or training room:

- We have increased sanitising of all surfaces and classrooms
- We have reduced the number of students in each class to be in line with the government's requirements
- Anyone with signs of infection is refused entry into the classroom
- We are keeping our operations going at a significantly decreased capacity to allow our clients and students to get qualifications to start work during and straight after this crisis passes
- As training is conducted in Covid 19 Safe workplaces we ensure we meet government regulations & guidelines

We remind all the participants to follow health guidelines:

- Stay home if you feel unwell or recently visited (14 days) areas where COVID-19 is spreading
- If you have a fever, cough and difficulty breathing, seek medical attention and call in advance
- Follow the directions of your local health authority

We appreciate your support during these difficult times for our country and the world.
